

Access to Resources in the Community

September 2019 Newsletter

What is ARC?

A research study that aims to optimize equitable Access to Resources in the Community for primary care patients.

Study locations

Eastern Ottawa region

8 Primary care practices

36 Primary care providers

Greater Sudbury region

4 Primary care practices

21 Primary care providers

Important information

Patient recruitment for the ARC study

ENDS DECEMBER 15TH, 2019

Referrals will be accepted until this day.

Patient testimonials

"The [ARC] Navigator was really invested. She called me regularly, she was nice. She went above and beyond to help me. She was very reliable, I knew I could count on her to call me. This was a certain reliability that I didn't have in my life."

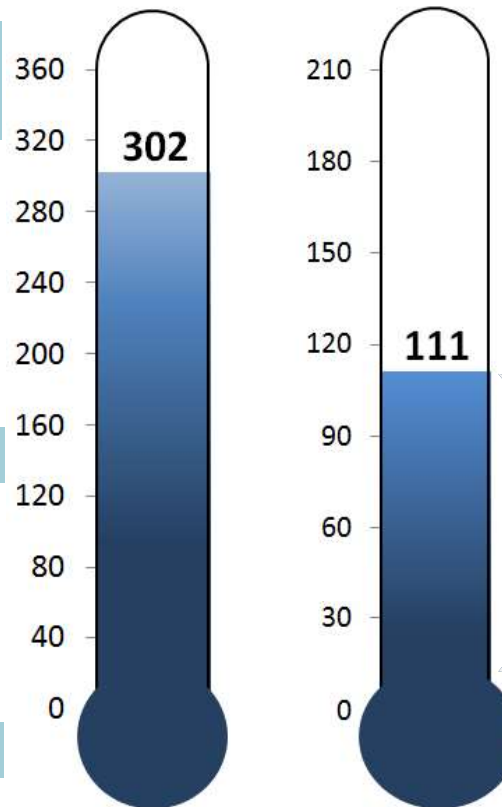

"It was nice that someone took care of looking in the right places and this saved time. She [the ARC Navigator] has the knowledge to zone in on the most applicable resources and found what was local, which I wasn't able to do on my own."

Number of referrals received to date

Referral Goal

Ottawa

Sudbury

570 referrals will enable us to reach our target sample size

Achieving our referral goal means your patients are more likely to access the services they need.

ARC ABOUT TEAM RESOURCES RESEARCH CONTACT US FRANÇAIS

Welcome to the ARC Research Project!

I am a HEALTH CARE PROVIDER
ARC can help me provide integrated community health services.

I am a PATIENT
ARC can help me navigate and access health community resources.

I am a COMMUNITY RESOURCE
ARC can help me build connections with health care practices and patients.
